Date 05-05-2016 **CBSE**

Max marks 15 **Physics Test**

Time 45 min. **Class IX**

1. A car travels, 1 km and returns back to the same point in a different path. What is its average velocity? **(2)**

2. A body starts from rest and achieve a velocity of 5 m/s in 2s. Find
   (i) acceleration and **(2)**

3. Define unifom motion and give one example

4. Define Non uniform motion. give one example
